FEBRUARY HIGH SCHOOL REPORT

Grade XI.—Dennis Barber (7, 3, 0); Douglas Hatch (S. S.); Annie Kennedy (4, 0, 2); Norma McConnochie (A. H.) Viletta Wright (5, 1, 2).

Grade X.—Maude Smallwood (3, 2, 0).

Grade IX.—Lorena Ambler (7, 1, 3); Myrtle Glasgow (7, 1, 2); Margaret Rae (8, 3, 0); Morris Wright (7, 3, 1); Grace IX. and X.—Mary Landers (7, 2, 3); Grace Love (5, 2, 0); Frank Maguire (6, 1, 0).

Grade IX.—Eleanor Barber (A.H.); Beulah Blade (6, 1, 0); Marjorie Locke (A.H.); Helen McDowell (A.H.) Bernice Mathison (6, 0, 0); Ethel Milburn (A.H.); Harriet Nash (7, 2, 1); Berill Sellstad (6, 1, 1); Violet Simmons (4, 2, 0); Phyllis Thurston (S.S.).

TEN YEARS AGO

From Irma Times, March 1st, 1918.

Education Point School opened with Mrs. R. W. Patterson as teacher.

J. W. Wyatt received record price for car of wheat, car consisted of 263 bushels, grading No. 1 and brought \$4,195.00.

F. A. McKenzie was in Edmonton.

W. B. Peterson went to Edmonton for another operation.

A daughter arrived at the home of Mr. and Mrs. W. O. Eaton, on February 24th.

Mr. and Mrs. O. McMurray returned after spending three months with friends in Idaho and Washington.

J. G. Clark received a letter from his son George whose plane had been shot down behind the German lines.

Jim Elliott, Lance King and Eldin Penton each shot a deer near Fabyan.

Wm. Santee was building a new house.

Five years ago from Times March 2, 1923.

The British Petroleum well was shut down on account of waiting for repairs.

Mr. J. H. Elliott celebrates his 75th birthday.

Miss Inez Fenton was acting operator on the Irma switchboard.

Mr. James Walker arrived to spend the summer with his brother Mr. W. Walker.

Alex Smallwood was taken to Edmonton for an operation for appendicitis.

The Irma Ladies Aid met with Mrs. Thorp.

Mrs. T. McKenna and Miss Eva Derham left for an extended visit with friends in Saskatchewan.

Mr. and Mrs. U. Hubbs purchased the Irma ice cream parlor.

MARCH ROD & GUN AND CANADIAN SILVER FOX NEWS

A most instructive article on the factors contributing to the tremendous loss of trout fry after being planted from the hatcheries is one of the outstanding features of the contents of "Rod and Gun and Canadian Silver Fox News for March." The author, Prof. A. P. Knight, a well-known authority gives a splendid review of the experimental work which has shown how small a percentage of fry survives and the reasons why. Many other splendid outdoor articles and stories also appear in this issue.

A notable addition to the magazine is made this month in the publication of a French supplement to the Canadian Silver Fox News section. It is announced that this added feature will be sent each month to the Quebec members of the Canadian Silver Fox Breeders' Association.

"Rod and Gun and Canadian Silver Fox News" is published monthly by W. J. Taylor Limited, Woodstock, Ont.

FARM POULTRY PAYS

"Farm Poultry Pays" is the title of an interesting, seventy-two page booklet that the Bank of Montreal is distributing free to the farmers. This booklet has been prepared by well known experts, and it embodies in easily understood language and in graphic form the results of investigation and experiments carried out under the most modern scientific supervision. In distributing this booklet, the Bank of Montreal hopes that it will help materially in improving poultry-raising methods, and consequently in increasing the profit from this branch of the farming business. Call at the Bank and get a copy the next time you are in town.

NEWS ITEMS FROM KINSELLA

Mrs. Fred Ross and sons, George and Harold of Viking, spent part of last week with her sister Mrs. P. J. Wangness. Mr. Ross motored down from Viking on Sunday and Mrs. Ross and one returned home with him.

Mrs. Charlie Turnbull spent a few days at Viking last week.

Mr. and Mrs. J. Austin spent the Friday afternoon at Wainwright.

Mrs. McKie spent Saturday afternoon at Jarro.

Mr. Frank Williams and his mother are leaving for Calgary this week where they will spend a few weeks with his brother Harold Williams.

Mrs. Tom Mackey and three children are spending some time with her mother and father at Delmas, Sask.

Mr. Greenwood and his sister-in-law Mrs. Greenwood spent a few days in Edmonton last week.

Quarter 30-44-8, with on Wednesday, the 8th day of February, A. D. 1928, and that the said animal was sold on the 20th day of February, 1928 to Roy Bronson of Hardisty, Alberta and that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs to the municipality and the purchaser of said animal.

For information apply to the undersigned.

—R. J. Tate, Sec. Treas. of the Municipality of Battle River No. 423, Post Office Irma, Alta. 11.

The weather on March 1st was warm and snow was settling fast, with the exception of the roads around town which is fairly good, it will not last long with a few more days of soft weather.

Household Helps.

PRIZE WINNERS

POUND CAKE—One cup of Butter 1 cup of sugar, 5 eggs, 2 cups sifted flour, 1-2 teaspoon of baking powder, 1 teaspoon each of lemon and vanilla flavoring, 1 cup of seeded or seedless raisins, 1-2 cup of thin cup oranges or citron peel. Cream butter, add sugar and beat well. Beat eggs well. Sift flour and baking powder. Add half cup of flour to mixture, and portion of eggs. Continue to add these ingredients alternately, beating batter between each addition until smooth. Reserve 2 tablespoons of flour, to which add fruit. Fold carefully into batter, also flavoring. Bake in loaf tin about fifty-five minutes. (Please send name and address.)

TEA BUNS—Four cups flour, 1 small teaspoon salt, 1 teaspoon baking powder, 1 cup white sugar, 1-2 cup each lard and butter, 1 egg (well beaten). Mix with sufficient milk to form a dough, the same as for biscuits. Roll out about 1-4 inch thick; spread with filling; roll as for jelly roll. Cut into one-inch pieces. Place in baking pan and cook in a moderately warm oven about 20 minutes.

FILLING FOR BUNS—One egg, 1 cup brown sugar, 1-2 cup flour. Break egg into dish, and mix the brown sugar and flour into it.

PINEAPPLE SPONGE-PIE—Two cups grated pineapple, 2 eggs, 2 tablespoons melted butter, 1-2 teaspoon lemon extract, 1 tablespoon cornstarch, 1 cup sugar. Beat the egg yolks and sugar together with the cornstarch. Add to pineapple with lemon extract, and melted butter. Cut and fold in stiffly beaten egg whites. Pour into plate lined with uncooked pastry, and bake until set or about 20 minutes.

WALNUT COOKIES—1 cup butter, 2 cups brown sugar, 2 eggs, 1 cup chopped walnuts, 1-2 teaspoon soda, 1-2 teaspoon salt, 3-4 cups flour. Cream butter and sugar, add eggs well beaten. Add soda and salt to flour and sift three times. Do not roll, but pack in molds or form in long roll and let stand in ice box or cold place overnight. In the morning, slice thin and bake in hot oven. This makes five dozen cookies.

DATE TARTS—Four whites of eggs, 1-2 cups sugar, 1-2 lb. shelled almonds, 1-2 lb. dates, 1 teaspoon vanilla, pinch salt. Put the blanch almonds and stoned dates through the meat chopper together. Beat whites of eggs, add sugar gradually, beating all the time. Then fold in almonds and dates. Turn into shallow buttered pan and bake thin, in a slow oven 1 hour. Remove from oven and cut in bars while hot.

COCOANUT MACAROONS—Two eggs whites beaten stiffly, 8 tablespoons white sugar, 2 cups shredded coconut. Have the mixture very stiff. Drop by spoonfuls into a cookie pan. Bake in a moderate oven until nicely browned.

SCOTTISH FANCIES—One Egg, 1-2 cup sugar, 2-3 tablespoon melted butter, 1 cup rolled oats, 1-2 cup coconut, 1-3 teaspoon salt, 1-4 teaspoon vanilla. Beat egg very light; add sugar, and stir in other ingredients. Drop by spoonfuls on greased pan. Bake in moderate oven.

LEMON CHEESE CAKES—1-2 cups cottage cheese, 1-2 cup sugar, 2 tablespoons cream, 3 eggs, grated rind and juice of 1 lemon, 1-3 cups currants, 2 level tablespoons citron peel, 1 teaspoon vanilla. Press cheese through strainer, or press, add all ingredients with eggs beaten well. Fill patty pans with rich pastry, and fill with mixture. Bake 15 minutes.

RECITAL AND DANCE AT ROSEBERRY SCHOOL MAR. 9th

Miss F. Tors, graduate of the school of Fine Arts of Acadia University, Woodville, Nova Scotia, will give a miscellaneous program at Roseberry school, Friday evening, March 9th at 8 P. M. sharp. Local talent will assist, to be followed by a dance. Admission 50 cents each. Everybody come.

CARD OF THANKS.

I wish to thank my friends for the sympathy and assistance during my recent illness also the Irma Ladies Aid for the flowers furnished while in the Viking hospital.

W. L. Milden, Irma.

INTERESTING TIMES AT AVONDALE

The concert at Paschenedale School under the auspices of Avondale U. F. W. was a huge success. Before 8.30 the house was filled to the full extent of its capacity with friends from far and near who from the applause they gave, indicated the pleasure derived from the various items of entertainment.

The debate "Resolved that the tractor is of more value to the farmer than the horse" was well received. The affirmative was led by Gordon Whitley, while Dave Vesey defended the horse. Each leader drew other speakers from the audience as follows: Affirmative, Mr. Joe Carrington, Mr. Welsh and Jack Ballentine. Negative: Mr. Simmons, Mr. Gotobed and Mr. Steve Thomson. Judgment was given by the audience who decided the farmer could not dispense with the services of "Old Dobbin" for awhile yet. Paschenedale and Avondale pupils and teachers rendered playlets, tableaux, pantomimes, a pageant, duets, solos, etc. Miss Welsh and Mrs. Prothero gave Violin Solos. Mrs. Biggs and Mrs. Moulton, Vocal solos. Other local talent also came in for different items. Refreshments were served after the program. The drawing for the prizes took place immediately after lunch and was ably handled by Mr. Welsh of Wainwright and Mr. Gotobed of Fabyan. The lucky prize winners were as follows:

Rocking chair to Mrs. Milton of Battle Heights, Large Doll, John Sawdon of Irma; Men's Neck Tie, Earl Prior, Orminda; Ladies Collar and Cuff Set and Box of Stationery, Mr. Johnson of Leduc, Irma; Box of Handkerchiefs, Fred Proudfoot, Saltcoats; Bath Towel, Mrs. Staden, Saltcoats; Two Silk Embroidered Dishes, Roy Emelen, Saltcoats; Sugar and Cream Set, Wm. New, Avongreen; Mustard Pot, Chas. Yorker, Roseberry; Serving Tray and Guest Towel, Mrs. A. Harper, Roseberry; Child's Home-knit Mittens, Marega Craig; Baby's French Ivory Brush and Comb, Buster Haun, Avongreen; Men's Home-knit Mittens, J. Craig, Education Point; Ladies Silk Hose, Geo. Hipperson, Alma Mater; Ladies Crepe Apron, Miss Bennett, Avongreen; Two Linen Tea Towels, Monte New, Avongreen; Men's Suspenders and Ladies Hand Embroidered Apron to W. Masson, Irma; Buffet Searf, Mrs. Goodwin, Paschenedale; Ash Tray, Mr. B. Haun, Avongreen; Ladies Hand Painted Silk Tie, Bertha Hanley, Westlock; Shoe Trees, Mrs. A. Everett, Autumn Leaf; Box Colored Handkerchiefs, Bertha Carron, Autumn Leaf; Box Hand-painted Crepe de Chine Silk Handkerchiefs, Mrs. T. Slipper, Avongreen.

The proceeds cleared amounted to \$93.00. The ladies wish to thank all who helped in any way to enable the "Avondale U. F. W." to realize this sum and hope to be able to use it in ways worthy of the support given. The next regular meeting of the above local will be held at the home of Mrs. Chas. Johnson, Paschenedale district on Saturday P.M., March 17th. Visitors are always welcome at these meetings. Roll call will be answered with something pertaining to St. Patrick.

The last meeting of Avondale U. F. W. was held with Mrs. Wm. Johnson. The afternoon was taken up with the business of Concert and Raffle held on February 24th. The hostesses served a delicious lunch which added to the pleasure of the meeting.

Mrs. Vallee is in the General Hospital undergoing treatment.

Mr. and Mrs. Bodie of Edmonton have accepted a position with Mr. and Mrs. Monte New.

Mr. Goodwin and family are moving from Paschenedale to Avongreen. Mrs. Hersey is moving to the Goodwin farm in Paschenedale.

Miss Lizzie McCreadie is spending a month at the home of her brother Jim at Vermilion.

A party of Avongreen young people spent Sunday skating at the Carron rink.

Dave Vesey is putting on a dance at Paschenedale, March 2nd.

Born to Mr. and Mrs. Jas. Hamilton at Vermilion Hospital, Thursday, March 1st, a daughter, both doing nicely.

CHURCH NOTICES AND ACTIVITIES

CHURCH NOTICES

Sunday, March 4th, 1928.

Sunday School at 11 A.M.

Service for public reception of the Elders elected, held in the Irma Church at 2.30 p.m., followed by administration of the Sacrament of the Lord's Supper by the new Elders.

Sunday evening sermon on "The Apostle of whom we have nothing written but his name, but whose name is an index to his character." The Ladies Aid will meet with Mrs. Price Jones next Thursday.

Alma Mater services will be withdrawn.

The Elders to be publicly received next Sunday afternoon are:

Messrs. Frank Peterson, W. H. King and R. H. Locke for Irma; Mr. H. W. Peterson for Rose; Mr. C. Y. Hill for Strawberry Plains; Mr. J. H. Elliott for Alma Mater; Mr. B. Oldham for Roseberry; Jas. Fenton for Sunny Brae.

VIKING WELL MAY TURN OUT OIL PRODUCER

Possibly the deep test well now being sunk by the Hudson's Bay-Marlard Oil Company in the Viking gas field about 75 miles southeast of Edmonton, turning into an oil producer is seen in an official statement issued by the International Utilities Corporation from Montreal.

The International Utilities Corporation is the holding company of several other utilities companies, including the Northwestern Utilities which supplies gas to Edmonton.

The statement issued by P. M. Chandler, president of the International Utilities Corporation is to the effect that an agreement has been entered into with the Hudson's Bay-Marlard Oil Company to drill a deep test oil well, and that in the event of oil being obtained, an oil production company is to be formed and owned jointly by the Hudson's Bay-Marlard Oil Company and International Utilities Corporation.

The structure, which has been approved by Marland geologists, is situated in the centre of the field now supplying gas to Edmonton, in which the Hudson's Bay company also has holdings. Drilling operations, under the terms of the agreement, are to start by June 1st next.

The United Grain Growers have received a supply of bran and shorts.

Last Thursday morning about 4 o'clock when Mr. and Mrs. J. Erickson had returned after spending the evening with some neighbors, they tuned in their radio and were surprised to hear a program coming from Brisbane, Australia. They were also able to get Melbourne and Sydney and continued receiving from these three stations till 6 A. M. Mr. Erickson has a six tube Atwater-Kent instrument.

Something to worry about—The sun is expected to burn itself out in one hundred and fifty billion years.

TRUSTEES TO MEET NEXT YEAR IN LETHBRIDGE

The 1929 convention of the Alberta Trustees Association will be held in Lethbridge, it was announced; at the conclusion of the 1928 meeting recently held in Edmonton. The claims of the southern city were placed before the gathering by T. O. King of Raymond, president of the association, and Dr. J. E. Lovering, vice-president.

A Forward Step

The development and growth of Canada politically, economically, in commerce and finance, in production from its natural resources of the field, the forest, the mine, and the waters of the Dominion has, during the first sixty years of Confederation, been most gratifying. This is now fairly generally recognized. It is also the general belief that Canada is just entering upon a still greater era of expansion and development in many directions leading to a greater growth and larger prosperity.

The question, however, which, to an increasing extent, is calling for serious consideration is: What policies should be adopted and steps taken to insure that this future development shall proceed along lines that will result in building up a strong nation, and in such a way that maximum benefits from such development shall accrue to the whole people of the Dominion?

During the pioneer stage in any country's development it is inevitable that its people devote their energies largely to the production of primary articles, largely raw materials. But with increase in population, the provision of adequate means of transportation, and the accumulation of wealth, a country should move forward in the work of not only producing such raw materials in increasing quantities but in utilizing them in the manufacture of finished articles.

It is important that due methods in production of raw materials be discarded for those best calculated to give larger quantities, better qualities, and at lower costs; that all possible waste be eliminated; that as many by-products as possible be reclaimed, and that use be made of low-grade and off-grade materials. It is perhaps of even greater importance to ascertain the nature of pests and other agencies which now operate to destroy our raw materials at their source, and to discover effective means for their eradication.

The discovery of all these things can best be brought about through the painstaking effort of the expert in scientific research. Such work may require years of study, investigation and experiment. In many perhaps most cases it will call for laboratory and other expensive equipment. In the past Canadians have not fully appreciated the importance of such work, and, as a consequence, have not been prepared to provide the necessary public funds to carry it on. As a people we have been so busy attending to our own particular problems, and demanding immediate solutions of them, that we have been impatient of ideas based on long and expensive scientific research. As a result, Canada today lags behind other nations in this respect, nations which have not nearly the wealth of natural resources calling for development which Canada possesses.

It is, therefore, highly gratifying to learn of the action of the House of Commons in unanimously adopting a resolution favoring the establishment of a National Research Institute by the Dominion Government, and of announcement by the Government of its intention to proceed with the erection of the first wing of a National Research Institute building on a ten-acre plot at the central experiment farm at Ottawa.

Last year, it is stated, Canada spent \$200,000 for research as compared with \$7,000,000 by the United States, and \$2,000,000 by Great Britain. This year the Government will, on the recommendation of the Research Council, increase the vote for research work to \$750,000, and the Minister estimated that three million dollars would be required during the next five or ten years to construct and develop laboratories.

In this way the splendid work initiated by many of our Canadian universities, assisted by private capital, will be supplemented, and the whole work of research in Canada co-ordinated and developed. When it is realized that Canada is estimated to be losing at least twenty million dollars a year through grain rust alone, the possibilities of gigantic gain through research work can be grasped. A few millions a year spent in research work may easily mean a gain of ten times as many millions through discoveries made.

Preparing Reception

For British Party

Empire Parliamentary Association To Visit Canada This Summer

Arrangements for the reception this summer of the Empire Parliamentary Association are now being completed. It is understood that a party of about 50 members of parliament from Great Britain will take part in the tour of Canada, accompanied by some members of the parliament of Canada.

The British party will arrive in Quebec on August 26. They will visit Montreal, Toronto, Niagara Falls and spend two days in Winnipeg before September 4 or 5. Saskatoon, Edmonton, Jasper, Vancouver, and Victoria are included in the trip West. Coming East there will be visits to Lake Louise, Banff, and to the EPF Ranch near High River, Calgary and Regina.

According to Pliny, Cato believed that husbands started kissing in order to determine whether their wives and daughters had been drinking wine.

"A Babe in the House is a Well-spring of Pleasure."

St. Catharines, Ont.—"During motherhood I was all rundown, nervous and weak, when, upon advice, I began taking Dr. Pierce's Favorite Prescription. It strengthened me, quieted my nerves and I had no more trouble. I even had a fine, healthy baby—he has scarcely had a day's sickness. The 'Favorite Prescription' was so helpful to me that I believe it is the only medicine for the expectant mother to take."—Mrs. Gordon Bouck, 33 Wiley St.

Go to the drug store at once and obtain this Prescription in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial package of tablets.

Discuss Coal Subsidy

Subsidy To Railways For Transporting Alberta Coal Should Come From Dominion Government

Any subsidy to the railways for transporting Alberta coal to Ontario should come from the Dominion Government and not from Ontario, said Premier G. H. Ferguson in the Ontario legislature in reply to a question of J. G. Lethbridge, Progressive leader.

Mr. Lethbridge asked what the attitude of the government was in view of recent suggestions made in the press. Mr. Ferguson pointed out that the railways wanted \$9 a ton where as the actual cost as determined by the railway board was \$7. The real cost, he thought, was nearer \$6.75. There was a suggestion, said the premier, that if the Dominion Government would contribute a subsidy of \$1 a ton the province of Ontario and Quebec should join in providing another dollar.

HOW DELICATE GIRLS ARE MADE STRONG

Rich, Red Blood Needed To Keep Up Their Vitality

It should be borne in mind that pale, bloodless girls need plenty of nourishment, plenty of sleep and regular out-of-doors exercise. But a lack of appetite and tired, aching limbs tend to hinder progress. To save the weak, thin-blooded sufferer, she must have new, rich blood, and nothing meets a case of this kind so well as Dr. Williams' Pink Pills. These pills not only enrich and increase the blood supply, they help the appetite and aid digestion, relieve the weary back and limbs, thus bringing new health and strength and transforming anemic girls and women into cheerful, happy people.

The value of Dr. Williams' Pink Pills in the case of anemic girls is proved by the case of Miss Lucy Stoddart, Margareville, N.S., who says: "From the age of 12 to 15, I was in an anemic condition. I was very thin and nervous, had no appetite and had no desire to take part in the doings of those of my age. My mother got tonic after tonic for me, but they did me very little good. Then Dr. Williams' Pink Pills were recommended and almost from the first I began to feel better. My appetite returned, my strength returned. After taking the pills for a time I felt altogether different girl. I got up in the morning feeling bright and active, and ready for work or play. Since then I have always taken a couple of boxes of Dr. Williams' Pink Pills in the belief as a tonic and have thus kept in the best of condition. Every week or so I should promptly follow the example of Miss Stoddart, feeling sure that the pills will renew her health. You can get the pills from any druggist or by mail at 60 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Book On Manitoba Place Names

National Geographic Board Has This Work In Hand

The National Geographic Board will commence immediately to gather information for a booklet on place names in Manitoba. A booklet covering Alberta is now on the press and will be issued in a few days.

R. Douglas, the secret of the board, stated that the Manitoba booklet will cover the lakes, rivers, cities, towns and historic sites of the province, giving the derivation of each name. W. J. Healy, the provincial librarian, is the Manitoba representative on the board and will assist in the work, which it is expected, will require about one year.

The most obstinate corns fail to resist Holloway's Corn Remover. Try it.

Polly: "Did you see the aurora borealis last night?" Dolly: "No, I haven't been to a show all week."

The boiling of water removes very few of its chemical impurities, but it does kill the germs.

The "Flu" LEFT HER WITH A VERY WEAK HEART

Mrs. Beulah Demons, Pleasant River, N.S., writes: "Having suffered with the 'flu' a few years ago, I was left with a very weak heart. I was unable to go about, and could not do my housework. 'I would get dizzy spells and would have to go and lie down. I could not sleep at night as the least little noise would wake me up. I tried different kinds of medicine, but they seemed to do me no good. A friend recommended

MILBURN'S HEART AND NERVE PILLS. I have used five boxes and am much better; do not get those dizzy spells, and can do my own work as well as ever."

Price 50c. a box at all druggists and dealers, or, on receipt of price by The T. T. Milburn Co., Limited, Toronto, Ont.

Minard's Liniment relieves pain.

Widen Income Tax Scope

Speculation Profits On Grain Or Stocks To Be Subject To Tax

Broadening the principle laid down in the case of Allan Morrison versus the Crown, in which the court held that income derived from speculation on the grain exchange was taxable under the Income Tax Act, the income tax department intends to levy tribute upon profits made from speculation, whether on grain or stocks.

This announcement was made by the department and it was further stated that the tax would apply upon profits made in the calendar year 1927. It is expected that some \$50,000,000 additional income will be brought under the tax annually, and since much of it runs to high amounts per individual, the increase in the receipts of the government may well amount to \$5,000,000 per annum.

Those who speculate only occasionally will not be subject to the levy, but all who make a business of it, notwithstanding the fact that they may be at work daily in other businesses, will be considered taxable.

Prevent Level Crossing Accidents

New Legislation Introduced In Saskatchewan House With This Object In View

Complete accord by all parties in the Saskatchewan Legislature was expressed on the proposed amendments to the Vehicle Act which have to do with autoists bringing their cars to a complete stop at railway level crossings or where stop signals are erected, before attempting to make a crossing.

The amendment was introduced by Hon. S. J. Latta, provincial secretary, as an attempt to eliminate level crossing accidents.

The Saskatchewan gasoline tax bill, introduced by Hon. S. J. Latta, calls for a tax of three cents on each gallon of gasoline sold, and will come into force May 1.

A River That Burns

Stream Of Water In France Was Ignited By Match

A burning river and a buried forest were the unexpected rewards of men digging for springs in the interest of the water supply of Culois, France. Instead of a spring they discovered a stream of water which bubbled like champagne.

When a match was thrown into the water it caught fire and burned for several hours.

The source of the gas was found by sinking a shaft 100 feet where giant oaks and pines were discovered decomposed, remains of a forest supposed to have been buried hundreds of years ago by a landslide.

Its Quality Tells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, sprains, and various inflammatory pains its record is beyond reproach.

Recipes For This Week

(By Betty Barclay)

LAMB MENAGERE

(Thrifty) Housewife's Lamb

(Rankings)

1/2 cup sweetened condensed milk.
2 cups cold lamb, minced.
1 teaspoon salt (scant).
1/2 teaspoon white pepper.
2 tablespoons chopped green peppers.
1 tablespoon chopped onions.
2 tablespoons hot water.
2 tablespoons bread crumbs.
1 tablespoon butter.

Mix sweetened condensed milk with water and stir into lamb. Add salt, pepper, chopped onion and green peppers. Put into buttered ramekins. Melt butter; mix with bread crumbs and sprinkle over meat. Bake in a moderate oven (350 degrees Fahrenheit) for about 20 minutes, or until well browned.

CUSTARD SOUFFLE

3 tablespoons butter.
1/2 cup flour.
1/2 cup sugar.
1 cup scalded milk.
4 eggs.
1/2 teaspoon salt.

Melt butter, add flour, and gradually mix hot milk. Bring to boiling point and pour on to yolks of eggs beaten until thick and lemon-colored, mixed with sugar and salt. Cool. Fold in whites of eggs beaten stiff. Turn into buttered dish, and bake from 30 to 35 minutes in slow oven. Take from oven and serve at once. Serve with hard sauce, whipped or plain cream.

Minard's Liniment for sick animals.

CUTICURA Promotes Loveliness Of Skin And Hair

Daily use of the Soap, assisted by the Ointment when required, keeps the skin fresh and clear and the hair healthy and glossy. They are ideal for the toilet, as is also the smooth, cooling, fragrant Cuticura Talcum.

Sample Box Free by Mail. Address: Canadian Agents, "The Cuticura Company," 100, Queen St. W., Toronto, Ont.

HERCULES PERMANENT BUILDING PAPER

What's between Indoors and Outdoors?

The world is divided into two parts, outdoors and indoors. Between the two lies a problem. The answer has a vital effect on those who are indoors.

If wind and dampness can be kept outdoors, naturally indoors will be comfortable and healthful to the occupants.

You can solve this problem with Hercules Permanent Building Paper. In three grades, x, xx, xxx—Hercules is tested and proven damp proof and wind proof. Test it yourself. A line will bring samples. Write us.

Searching For Continent

Australian Explorer and Aviator Has Gone To Arctic

The urge that for centuries had sent men up and down the earth in search of new countries gave impetus to another such mission when Captain George Wills, Australian explorer, aviator, and Carl B. Elson, his soundproof pilot, sailed from Seattle recently for Seward, Alaska, from whence they will begin a search for an Arctic continent.

They will go from Seward to Fairbanks by rail. From Fairbanks they will attempt to fly to Point Barrow.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

Communication by telephone has been established between Scotland and Canada. On that line idle gossip will not often interfere with the transaction of business.

When asked if she was interested in a car with a woman, drive she declared she never felt safe with her husband at the wheel.

U.S. Legation At Ottawa

Residence For Minister From United States To Be Erected

Hon. Frank B. Kellogg, United States Secretary of State, after a visit to Ottawa as a guest of the Canadian Government, announced in an interview that it was expected that the United States would erect a residence for the United States minister and an office building for the legation staff in the city of Ottawa. Arrangements as to location would, he said, be in the hands of the United States Minister to Canada, the Hon. Wm. Phillips.

All mothers can put away anxiety regarding their suffering children when they have Mother's Own Remedy to give relief. Its effects are sure and lasting.

Car Salesman—"And the price is within easy reach."

Victim—"Show me where to reach and I'll grab it."

A cynic is a person who knows the price of everything and the value of nothing.

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it isn't! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark registered in Canada indicating Bayer Manufacture. While it is well known that Aspirin causes no harm, Bayer has taken the precaution to assure the public against imitations. The Tablets will be stamped with their "Bayer Cross" trademark.

Flying Comes Here To Stay And Conquest Of The Air Goes On Apace In Canada

Canadian fliers who may be anxious to attempt a transatlantic flight this summer will have much difficulty in securing permission from the federal government, because transatlantic hops are frowned upon in the Dominion on account of the aerial tragedies of 1921.

Legislation will be passed at the present session whereby licenses will have to be secured by pilots desiring to fly across the Atlantic. It will be extremely difficult to secure such a license.

Flying in the Dominion last year was more costly in dollars and in human life than ever before, no fewer than eleven pilots having been killed in flying accidents and yet no records were as complete or set by Canadians.

Flying has come to Canada to stay. It was born of the war when Col. William Avery Bishop, V.C., won every decoration possible for conspicuous gallantry and devotion to duty in shooting down seventy-two enemy planes.

In these days of peace the conquest of the air goes on apace in the Dominion. The young men who reaped the whirlwind in the war returned to Canada to earn their living as civilians. But the spirit of war work survived, and in a small but seasoned organization called the Royal Canadian Air Force the traditions of aerial navigation were carried on.

The young airman, trained in war days, looked to the civil department of government for employment. They were needed and within two or three years of the close of the war many of them were in the Royal Canadian Air Force, detecting forest fires, locating smugglers on the boundaries, and mapping out by photography the vast area of the hinterlands.

Canada was quick to establish the necessary code of law for navigation of the air, and today the Dominion is safeguarded by a set of strict regulations governing the licensing of all mechanics, pilots, air harbors, international flying signals and the inspection of aircraft.

The most conspicuous work done during the recent crowded years of flying history has been the survey work in which Canada has led the world. Last year more than 400,000 square miles of Canadian territory were photographed and mapped with an accuracy which would have required years and millions of dollars if done in the old way.

Parliament acknowledged Canada's future in the air was assured by providing \$3,000,000 last year for air development. Cities are being encouraged to provide future air harbors, technical advances from Great Britain have visited the Dominion to make recommendations for the future linking of the Empire by airways, and the postoffice department is taking the initial steps toward what will be an Atlantic-to-Pacific air route.

Red Tape In France

A girl living in Epinal, France, has been refused a marriage license because she has never been officially born. She applied for a birth certificate, which is required before a marriage license can be issued, and the officials traced the record, but could find no trace of her birth having been entered. Her parents had apparently neglected to register her birth. She was informed that officially she was not born, and the wedding has had to be postponed.

Passenger: "Porter, is this a through train?"
Porter: "Nowah, she's just done commenced, sah!"

A hair from a man's head is slightly heavier than a woman's hair.

"Emil, can you hear the murmur of our souls?"
"No, you are mistaken. It is my stomach. I have indigestion."—Friedrich Schlegel, Munich.

W. N. U. 1721

Fisheries Of Alberta

Smaller Catch Is Reported For 1922 Over Previous Year

The fisheries of Alberta were not so active last year as in 1921, when a catch of 7½ million pounds netted the fishermen \$749,000, an increase over 1921 of \$200,000. Estimates of the total 1922 catch are placed at about six million pounds, with prices running about the level of 1921. The Alberta fishing activity depends largely on the production of the Manitoba lakes. The chief markets for the fish are New York and Chicago, and the Manitoba fishing companies fill these needs. If the Manitoba catch falls off, greater activity is necessary in Alberta, but if the Manitoba fisheries are active, Alberta is left with a smaller demand to fill.

During the past year a whitefish hatchery was built on Lesser Slave Lake, which, with Lake Athabasca, are the chief sources of supply.

Ship Carries Air Taxi

Passengers On West Indies Cruise May Take Side Trips In Plane

Passengers who sailed from New York on the North German-Lloyd liner Columbus for a cruise to the West Indies may, if they wish, take side trips by plane. When the vessel docked from Bremen, it carried aboard the funnels a huge silver and black Junkers hydroplane.

The pilot of the plane is Walter Hagen—not the golfer, but a German airman. On the metal sides of the air taxi is lettered its name, Globe Trotter. Hammond declared that fares for the air-route seems will be about \$1 a minute.

Paris-Inspired

One is immediately intrigued by its exquisite femininity. This stunning Parisian model No. 1702, fashioned of Creme de Menthe chiffon, derived distinction from its detail in cut. The bodice fits sleekly over the hips, adding a loose flat bolero at back to vary its smartness, and silver metal shoulder straps extend around the deep open neckline at the back. The skirt is made in three tiers with the selvedge used for the edge of each tier, and loose hanging circular panels with piped edges furnish the new side fullness to flutter to dance tunes. No. 1702 is in sizes 16 years, 33, 35, 36 and 42 inches bust. Size 36 requires 6½ yards of 36-inch or 5½ yards 40-inch material, and ¾ yard 1½-inch lace banding. Price \$25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dresser. Price of the book 10 cents the copy.

Co-Operation Between Railways

Two Transcontinental Systems Will Stand Together In Promoting Welfare Of Dominion

Whole-hearted co-operation between the Canadian Pacific Railway and the Canadian National Railway is assured in everything that will make the greatness of Canada. E. W. Beatty, president of the C.P.R., and Sir Henry Thornton, president of the C.N.R., declared at Engineer's Club, Montreal.

The occasion was a presentation dinner to the staffs of both roads, who contributed to the success of the second (triennial) Empire Mining and Metallurgical congress, held last year in Canada.

"Something has been said of the co-operation between the two railways during the Mining congress," said Mr. Beatty, "and it has been talked of as though it was something to marvel about. It is not. In anything that is of common interest to the country and the railways you will find, I think, he able to find the Canadian National and the Canadian Pacific Railways joining in support of that effort, whatever it may be."

On the question of co-operation, Sir Henry Thornton had the following to say: "Let me say that we in Canada are too few in numbers to quarrel, and too poor in capital to fight each other. The progress of our country will be best assured by the co-operation of all institutions within our bounds and by the joining of each section of our country in promoting the welfare of the Dominion. We shall stand shoulder to shoulder with the Canadian Pacific Railway in the protection that is necessary to preserve the revenue of our great transportation systems."

Blinders Trade With India

H. R. Poussette, Canadian trade commissioner at Calcutta, writes that one factor that militates against the expansion of Canadian exports to India is the reluctance of Canadian manufacturers to send representatives to visit the markets of India and Ceylon and the Middle East generally. Similar complaints have been made by other trade commissioners.

If Australia could be transplanted into the Atlantic Ocean, it would fill up all the space between the United States and Great Britain.

For Better Understanding

Sir Hugh Denison Deprecates War Talk In Britain and U.S.

Sir Hugh Denison, former commissioner for Australia in the United States, pleading before the English Speaking Union for a better understanding between the United States and Great Britain, cautioned his hearers not to take Mayor Thompson of Chicago seriously.

Recalling the Chicago mayor's threats to burn school books and his other anti-British attitudes, Sir Hugh declared that Mr. Thompson no more represented the U.S. feeling than A. J. Cook, secretary of the Miners' Federation, represented England.

The former commissioner also made reference to Rear Admiral Plunkett's recent speech on the possibility of a better Greek Britain and the U.S. and urged the people of both countries to weigh such matters in the proper balance.

He urged steps to bring about closer relations through visits of statesmen, mentioning particularly Senator Borah and industrialists of the two countries.

"He would find much in common," he said, "and by exchanging views would do a great deal in smoothing out the little misunderstandings which arise occasionally."

Declares Columbus Was Buried In America

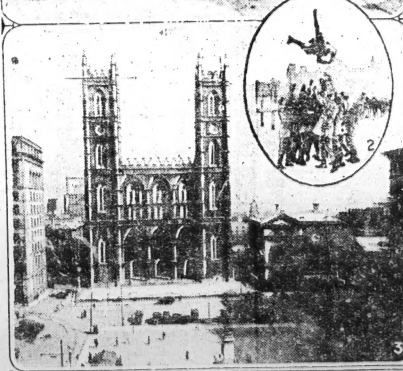

Ashes Sent To Mexico In 1542 Says Spaniard

Where is Christopher Columbus buried? That is the question.

Historians have been telling the world that his ashes are buried in Seville, Spain. But Senor M. A. Cocco, who attended the Pan-American road convention, takes issue by asserting the remains are buried in America—specifically under the great cathedral in Santo Domingo City.

Senor Cocco says that the wife of Diego Columbus, son of the discoverer, petitioned Charles V. to remove the ashes of the discoverer from Valladolid, Spain to Santo Domingo. Permission was granted for the remains to be moved to Hispania America, according to his story, and in 1542 burial was effected under the altar of the cathedral in Santo Domingo City.

Many a man's financial goose has been cooked in a jack pot.

Ten Thousand Snowshoers Meet

1—Snowshoers in full costume. 2—A little diversion—the hoose.

Around ten thousand snowshoers and their friends visited Montreal on the occasion of the 20th anniversary of the founding of the Canadian Snowshoers' Association, which was held in that city February 3-6. The convention takes on an international character by the fact that the American Snowshoers' Association, with over 1,500 members in the states of New Hampshire and Massachusetts, also attended the convention. In addition there were representatives from the Manitoba Snowshoers' Association and a large attendance from the St. Henri Canadian Club, which was celebrating at the same time its fiftieth anniversary, while unattached snowshoers from all parts of Canada and

the United States went to Montreal for the function.

The convention was held under the auspices of the United Snowshoers' Clubs of Montreal and was featured by a carnival, during which the grand snowshoe championship of the world was decided. His Worship Mayor Barin was the patron of the convention, and in its celebration a banquet was given at the City Hall, at which the snowshoers were the guests of the city, on Sunday evening, February 5.

A number of snowshoers travelled distances up to 300 miles on foot to Montreal, but the majority took advantage of the special facilities offered in excursions at reduced rates by the Canadian Pacific Railway.

Canadian Sheep Breeders View The Future With The Utmost Confidence

Benefit Of Inoculation

Effect Of Inoculation Shown On The Yield Of Legume Crops

At several of the Experimental Farms in Canada tests have been made on the effect of inoculation on legume crop yield where legume bacteria were absent from the soil or present in insufficient numbers, and the results are summed up in a pamphlet on "Legume Inoculation" written by the Dominion Agricultural Bacteriologist. In some cases the increases in yield resulting from inoculation were comparatively slight, but in many instances they were strikingly large. At the Kapuskasing Experimental Station two years after seeding, the inoculated alfalfa seed produced 3 tons, 1,465 pounds of dry matter against 3 tons 967 pounds produced from untreated seed. Results at the Beaverlodge, Alberta, Station were much more striking. On areas clipped in the year of seeding on that station the aggregate crop of two years from inoculated red clover seed was 4,162 pounds per acre as compared with only 329 pounds from uninoculated seed. For alfalfa the comparison was 4,258 pounds with 640 pounds and for sweet clover 5,660 pounds with 1,520 pounds per acre. The pamphlet may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

A Valuable Fertilizer

The Relative Value Of Fresh and Rotted Manure

Weight for weight rotted manure is more valuable than fresh manure as it contains percentages of plant food and has these elements in a more available condition. However, according to a new bulletin on "Manures and Fertilizers" written by F. T. Shutt, Dominion Chemist, and L. E. Wright, the losses in rotting frequently outbalance the benefits. Generally speaking, the sooner the farmer gets his manure while still fresh into or onto the soil the better. Still there are times when the rotting of manure is an advantage. It is well suited for light and sandy soils as it tends to make them more compact and retentive of moisture. On clays and heavy loams fresh manure is best as it improves their physical condition by opening them to the air and making them more friable. Fresh manure is also preferable for crops which have a long season of growth. With crops having a short period of growth and where early marketing is a consideration rotted manure with its quickly available plant food is best. It should be remembered that when rotting manure in a large heap the mass should always be kept compact in order to reduce losses to a minimum. The bulletin may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

Flower Improves With Age

Carnation Exhibited At London Show Changes Color Instead Of Fading

A new carnation named 'Daphne' which improves as it gets older was one of the exhibits at the Royal Horticultural Society show.

It is a medium-sized bloom, mauve in color, striped with heliotrope. "As it becomes older," the grower said, "instead of fading, the tones change to a delicate French grey, even more beautiful and artistic than its original coloring."

Another feature of the show was a little flower, Daphne Indica Rubra, which is said to be the sweetest smelling in the world.

Cause For Worry

Mrs. Jones found Mrs. Smith, the aviator's wife, in tears. "Whatever is the matter?" she asked, anxiously. "I'm worrying about Jim," said Mrs. Smith. "He's been trying all week to kill our cat, and as a last resort he took her up 2,000 feet in his plane. He said he would drop her over the side."

"Well, what is there to worry about?" "Lots," exclaimed the frantic woman. "Jim isn't home yet, and the cat is."

Lady (intervening—prospective help): I may tell you that we are vegetarians.

Girl (anxious to be engaged): I've attended that church all my life, mum.

The movie "Annie Laurie" was filmed in England and Scotland.

"My Old Kentucky Home" was composed by Stephen C. Foster.

With 120,000 more sheep in Canada than a year ago, George Gordon, of Oak Lake, Manitoba, president of the Canadian Sheep Breeders' Association, at the annual meeting in Toronto, viewed the future with every confidence for a greater increase in sheep population during the year. He spoke particularly of the conditions in Manitoba, where 40 years of wheat raising had resulted in very weedy land, which required the use of sheep to clean it up. For this reason, 120,000 sheep more than the present number could be successfully employed in Manitoba at this work. A committee had been appointed to interview the board of trade and the land and mortgage companies in Winnipeg with a view to soliciting their support to encourage the loaning of sheep on their farms to help clean the land. He outlined the good results of the four sheep sales in Manitoba. The districts in which they were held at one time supplied the worst grades of sheep to be found in the country. Now conditions were entirely changed and over one thousand sheep were to be seen offered for sale in one place. The highest price paid per pound for a lamb was 80 cents, and a Manitoba bred ram sold for \$200. The prize pen of 15 lambs sold for 39½ cents a pound and 260 grade ewes for \$13.50 each.

Mr. Gordon urged every sheep breeder to ship his wool to the Canadian Co-operative. It was very encouraging to hear the sheep men from the ranches of Southern Alberta say that the rancher who had shipped his wool every year to this organization had done much better than the man who shipped one year and sold to the private trade the next. Sheep men should not hesitate to patronize their own organization when they know they do so much to find markets for our wool. He said that the last shipment of 250,000 pounds of wool to England meant a great deal in opening up new markets and advertising Canadian wool. Last season approximately 3,600,000 pounds of wool, worth in the neighborhood of one million dollars, was handled, and the prospects for 1923 prices were good.

Cecil Stobbs, of McCreary, stated that the Dominion Government has removed some of the restrictions for importation of sheep from the United States owing to the prevalence of the foot and mouth disease in England. Reports submitted by the representatives from the several provinces were all of a gratifying character, particularly that from the Maritime, where a total of 29,292 lambs sold for a total of \$195,164. Pure bred ram lambs sold for \$20 to \$25; ewes, \$20 to \$30 and grades from \$10 up.

The receipts for the year were \$21,270 and expenditure of \$15,100. There is a balance of \$6,176. The record of registration shows 14,269 sheep of which 5,377 are Shropshires, with 3,743 Oxford Downs as the next in popularity. The total membership is 1,174 of whom 499 are in Ontario, 335 in Quebec, 61 in Manitoba, 53 in Saskatchewan, 104 in Alberta, and 11 in the United States. Among the total importations during the year of 325, there were 135 Shropshires, 60 Suffolk, 10 South Downs, 59 Romney, 2 Cheviots, 13 Black Face, 8 Leicester, 10 Rambouillet, 14 Merino.

The following officers were elected: President, Victor Sylvestre, Ste. Hyacinthe, Quebec; vice-president, John Wilson, Innisfail, Alberta; secretary-treasurer, R. W. Wade.

It was decided to hold the next meeting in Quebec.

Palestine produced less than 500 tons of wool in the past year, and all of this is to be used in the making of carpets.

"Now, Max, give the little girl a kiss. Don't be shy. Go on!"

"Leave him alone—he will do it spontaneously later!"—Mengendorfer Blatter, Munich.

That the interest aroused in the New Chevrolet has been well merited is indicated by these first photographs of this latest addition to the light car field. The smart sport cabriolet, with its folding seat and disc wheels, is shown in the upper right-hand photograph. In the centre is the sturdy Chevrolet seven-ton truck chassis, while at the lower right is the coach model, the body of which is five inches longer than formerly. Insets are: upper left, the massive new radiator and heavy full crown fenders; right, the powerful and elegant motor of the new line, with two-port exhaust and complete enclosure; lower left, a view of one of the four-wheel brakes. The New Chevrolets, which are to be reduced in price, are to be available at once. They are longer and roomier than previous models.

Maintain the Quality of Alberta's Seeds

BETTER SEED MEANS

Better Yields—Better Grades—Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of **High Quality, Clean, Treated, Seed Grain** in order to reduce the heavy annual losses sustained by sowing inferior seed.

Farmers can co-operate by—

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination & purity.
4. Treating for smut.
5. Thoroughly cleaning all grain intended for seed.
6. Seeding only varieties of recognised quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U. F. A. Locals, Boards of Trade, The Wheat Pool, Banks, Commercial Grain Firms, the Press, and many other organizations are working in co-operation with a—

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C. P. R. Agricultural Department and the University of Alberta.

D. A. McCannel, Provincial Publicity Commissioner, Edmonton, Secretary.

USE OF IMPROVED SEED GRAIN URGED

The use of better quality seed grain by farmers throughout the province this spring is being urged in order to maintain the high standard which Alberta crops have established in the past. Lack of care in the selection of seed, with the consequent lowering in the quality of the crop produced, will very soon reduce the demand for Alberta wheat on the markets of the world and correspondingly lower the prices received by the grower.

The remedy for this situation is largely in the hands of the individual farmer. The man who sows seed seeds with his grain has himself to blame for the lowered grade he will receive for his crop at the elevator and the dealer, imported seed dealers conducted in the province by the Dominion Seed Branch, indicate that the average seed put into the ground grades "rejected" according to legal standards as to the number of weed seeds present. The thorough use of the fanning mill on all seed grain will help the present and future crops by checking the spread of weeds which use valuable plant food.

If a farmer is not in a position to purchase registered seed, which can be secured from the Provincial Seed Cleaning Plant at Edmonton, he can at least use a high quality of commercial seed of one of the varieties of recognized merit. This is especially important in the case of wheat, as a wide variation exists among varieties as to their suitability for milling purposes. Seed of mixed varieties of an inferior milling wheat cannot give the product demanded by the millers.

Pump, uniform seed produces vigorous, healthy plants which keep weeds in check. Use the best seed grain you can secure. You will be repaid many times over for the extra cost involved.

Seed grain which is a mixture of several varieties will produce a crop which ripens unevenly. Some heads will shatter while others contain green kernels and the grower is penalized on both the quantity and quality of the grain he markets. Use better seed.

The experience of older provinces proves that the spread of noxious weeds will eventually drive farmers from the land. Alberta farmers can profit by this lesson, and check the spread of this menace. The great majority of weed seeds enter the ground through the seed drill and the remedy is very apparent: Use the fanning mills on all seed grain.

Treatment of seed grain with formalin or copper carbonate to prevent smut takes little time and will greatly reduce the annual loss from this cause. Start now with a small quantity of registered seed. At the same time use only the best commercial seed available for all your crops. You will be well repaid by an improvement in the quality and increase in the yield of your crops.

FARMERS ADVISED TO TEST SEED GRAIN

Warning is being issued to farmers at the present time in connection with the germinating quality of the grain which they propose to use for seed. Where grain has been exposed to the weather over winter as has happened this year in some sections of the province it is particularly advisable to secure a germination test on this grain before it is used for seed.

A one-pound sample of grain should be sent to the Dominion Seed Laboratory, Calgary, where the test will be made free of charge for farmers. Satisfactory germination tests can also be made at home by planting two lots of 100 seeds each about one inch deep in boxes of soil or sand. The tests should be kept fairly moist and at living room temperature for about twelve days. Note should be taken of the number germinating in six days which indicates the vigor of germination, and the number germinating in twelve days which indicates the total number of viable seeds. It is strongly recommended that germination tests be conducted as early as possible in the spring on all grain intended for seed.

THE CURE FOR DIVORCE

The large increase in divorces is responsible for sleepless nights amongst many opponents to this convenient form of separation. Despite the intricacy of Canadian divorce law over 2,000 marriage ties were dissolved by the various courts and the Federal House last year. In 1915, Canada had only sixty divorces whereas six years later this number had grown to 376. Apparently, whether we like it or not, the divorce epidemic is leading toward virtual abolition of the marriage knot. The sanctity of wedlock is passing and it is possible, within the next hundred years, that free unions of a temporary nature will be generally recognised as the only moral and proper association between two sexes.

There is a chance, however, that the stream of divorces can be checked somewhat if family life can be revived. The jazz age may be only a temporary period of extremity and when the fever of thrills has lost its flavor somewhat, civilization may find its normal temperature once again in the home.

AMERICAN FARMERS LOOK TO WESTERN CANADA

W. E. Black, Canadian Government agent at Fargo, North Dakota, in a letter to the Publicity Branch of the Alberta government states that there is a prospect of a very considerable movement of settlers from his territory to western Canada during the coming spring and summer. All the western provinces are receiving their share of attention at this time, states Mr. Black, and more inquiries are being received about farming opportunities in Alberta than for many years.

MANY HOMESTEADS TAKEN DURING PAST YEAR

Entry was made for 2,145 homesteads and 181 soldier grants in Alberta in the fiscal year 1926-27 and in the same period patents were issued for 2,237 homesteads and 48 soldier grants and patents were issued for a total of 3,543 homesteads and land grants.

GAME ASSOCIATION TO IMPORT PHEASANTS

One thousand pheasants, and possibly twice this number will be imported this year by the Calgary Fish and Game Protective Association and will be set out in selected districts to the south and south-west of Calgary, it is announced by C. A. Haydon, president of the association. A number of experiments with this splendid game bird in the southern part of the province have proved very successful and an effort will be made to stock a considerable area adjacent to Calgary.

More Profit from Burnside Chicks

BABY CHICKS, HATCHING EGGS, PULLETS, COCKERELS.

Egg raisers profit when they buy Burnside Baby Chicks. Hundreds of poultry plants in Canada maintain extraordinarily high yield year after year with Burnside stock—hardy, healthy birds with generations of high producing ancestors behind them!

BUYERS OF BURNSIDE CHICKS ARE SATISFIED. 200 p. c. INCREASE IN ONE YEAR!

The demand for our Baby Chicks jumps by leaps and bounds. This year we were forced to hatch over 200 per cent. more chicks than in 1926. Orders on hand now from former customers have made us install two 16,000-egg capacity Petersime incubators. We will hatch over 90,000 chicks in the Spring!

TRAPNESTED S. C. WHITE LEGHORNS

Our birds have been bred and trapnested for generations to one end—that their progeny will deliver eggs at a PROFIT. Our strain, developed by us, is proving itself. Why feed and coddle low-grade stock when Burnside birds will give you trouble-free dividends?

"MAKE THE GARDEN PAY"

is the title of a new 80-page booklet which the Bank of Montreal has issued and is now distributing free to all who ask for a copy.

This booklet is one of a series distributed by the Bank for the benefit of the farming interests of Canada. It contains practical, scientific and experience-tested advice and suggestions on how to make a vegetable garden pay. It is dedicated to the idea of "An acre garden on every farm in Canada."

A free copy of this valuable booklet is waiting for you at our nearest Branch. Ask for it by mail, telephone, or in person.

TUESDAY, MARCH 6th, 1928

Sale Starts at 11 A.M.
Free Lunch at Noon.

Horses, Cattle, Machinery, and Household Goods.
Sale at S.W. Quarter 18-16-8-w. 4th. 6 Miles Northwest of Irma.
Having received instructions from Mrs. I. F. McCartney, I will sell by Public Auction the following Complete Farm Equipment.

MACHINERY

- 1. 8 ft Deering Binder good shape
- 1. 3 1-2x 2 1-2 McCormick Deering with 125 bu grain tank, brand new
- 1. 3 1-2x 2 1-2 Bain Truck Wagon and box
- Set 2 1-2 Massey Harris cast cleighs
- 1 single buggy
- 5. 20-T sec. Diamond Drag harrows and draw bar
- 1. 12x16 International Disc Harrow and fore carriage
- 3 Sec. wood lever harrows
- 1 Harrow cart
- 1 No. 3 Primrose Cream Separator
- 1 3 H. P. McCormick Deering Stationary Engine.
- 1. 6 1-2 inch Vessot Feed Grinder
- 1. 12 inch Massey-Harris Cutting box
- 1. 28 inch circular wood saw
- 1 road cart
- 2 good hardwood stone boats
- 1 good hardwood float
- Quantity of Hardwood
- 3 rolls chicken wire
- 1. 32 inch Bull Dog Fanning Mill
- 1 Tank heater

19 HEAD CATTLE

- 1 red cow just freshened
- 1 red cow just freshened
- 1 red cow due to freshen April 1st
- 1 red cow due to freshen May 1st
- 1 roan cow due to freshen April 1st
- 2. two yr old Heifers due to freshen April 1st
- 35 Yearling Heifers
- Short horns and Herefords
- 2 Veal Calves
- 3 yearling calves
- 1 Short horn Bull registered 9 mo old

25 GOOD HORSES

- 1 team bays, mare and gelding, wt. 2200 lbs. 6 and 7 years old
- 1 team blacks, mare and gelding, wt. 2000 lbs. 7 years old
- 1 team black mares, wt. 2800 6 yrs.
- 1 team geldings, bay and black, wt. 3300, 6 and 5 years old
- 1 team sorrels, wt. 2800, 6 and 9 yrs
- 1 team black and grey, mare and gelding, wt. 2800, 9 years old
- 1 team greys, mare and gelding, wt. 2700, 8 years old
- 1 team mares, bay and brown wt. 2800, 7 and 9 years
- 1 team greys, mare and gelding, wt. 2800, 6 years old
- 1 team bays, mare and gelding, wt. 2400, 9 years old
- 1 bay driver, gelding, wt. 1100, 6 yrs old, quiet for ladies
- 1 black saddle horse, gelding, wt. 1100 8 years old
- 1 grey saddle mare, wt. 1000, 8 yrs old, quiet for ladies and children
- 1 sorrel mare, driver, wt. 1150, 7 yrs
- 1 black mare colt, Beauty
- All well broken and in good condition

HARNESS

- 2 good sets double breeching harness brass mounted
- 2 sets plow harness
- 12 horse collars
- 2 horse blankets
- 1 set double driving harness
- Quantity of doubletrees and eveners

HOUSEHOLD EFFECTS

- 1. 6 h.p. Moffet's Nelson Range with exterior - fitted for hot water
- 1 quarter oak sideboard
- 1. 9 foot quarter cut oak extension table
- 2 kitchen chairs
- 8 dining room chairs
- 2 oak arm chairs
- 3 rocking chairs
- 1 quarter cut oak parlor table
- 1 New Williams Drop Head Sewing machine
- 2 barlor stands
- 1 Piano Case Easy organ 7 octaves
- 1 Book Stand
- 1 Sofa, 1 Winnipig Couch
- 1 Mahogany Bedroom Set
- 1 Oak Dresser
- 1 Iron Bed, Springs and Mattress
- 1 Mattress, 1 Feather Bed
- 1 Good Rug 17 x 14
- Quantity Small Rugs
- Quantity Pictures
- 1 Moffet's Quebec Heater
- 1 Peerless Fire Extinguisher
- Quantity of Bedding
- Quantity of Plants
- 1 Model Laundry Washing Machine
- Quantity of Dishes
- Quantity of Cooking Utensils
- 1 Alladin Hanging Lamp
- 3 Table Lamps; 3, 5 Gallon Crock.
- 1 Large 8-Day Clock
- 1 6-Gallon Stone Churn
- 5 Cream Cans; 6 Sacks Potatoes
- Quantity of Vegetables
- Quantity of Fruit and Pickles
- Quantity of Beef and Pork
- Quantity of Tools

Quantity of Miscellaneous Goods too numerous to mention.
12 Pure Bred Barred Rock Roosters,
90 Pure Bred Barred Rock Pullets
and Hens, (Good Laying Strain).
1. 140 Egg Peerless Incubator.

VIKING

The biggest local bonspiel in the history of the town got under way last Saturday with 22 rinks entered. There are five open events besides the consolation, and good prizes given in each event. The array of prizes may be seen in the show windows of Campbell's store.

The Maple Lodge Curling Club is represented with three rinks, Hafsø Laeser and Craig, the Ladies Curling Club have two "The Girls" skipped by Mrs. Collier, and "The Ladies" by Mrs. Hennessey.

On Tuesday evening the Church Hall was the scene of a very enjoyable Leap Year Party put on by the girls of the Young Peoples Society, under the supervision of Miss Gladys Harris and Miss Mabel Berg. The interior of the Hall was very nicely decorated, hearts apparently being most in favor for decoration purposes. About twenty couples were present and the evening was given up to contests and games which everyone enjoyed to the fullest.

At 11 o'clock a delicious supper was served by the girls and after another game in which everyone got a Valentine, everybody formed a ring around the two convicts, Miss Harris and Miss Berg, and sang, "For they are jolly good fellows." The party then broke up with everyone voting the evening a great success.

The members of the ladies Curling Club held a miscellaneous shower on Monday evening, Feb. 27, in honor of Mrs. Jas. Pickering, one of their members, who is a bride of the month. The happy event was held at the home of Mrs. W. McAthey which was prettily decorated in yellow and green Easter decorations and a large white wedding bell hung in the arched doorway. The affair was in the nature of a surprise to the bride who looked charming. The evening was happily spent in contests and games at the conclusion of which Mrs. Robinson, the president of the curling club, announced that Mrs. Pickering had won all the prizes, and a large basket containing many lovely gifts was brought in and presented to the bride, with some very appropriate remarks. Mrs. Pickering responded very graciously. Dainty refreshments were served, the hostess being assisted by Mrs. Collier and Mrs. Robinson. At the close of the evening, Mr. Pickering arrived and a circle was formed around the newlyweds; the whole crowd singing "For they are jolly good fellows." Mrs. Basil Hilliker presided at the piano.

The Elks Band Concert which will be held in Recreation Hall on Wednesday, March 7th, promises to be a real musical treat. Mr. Clinton, the bandmaster, has arranged a fine program of marches, waltzes, overtures, piano solos, violin solos, readings, and other numbers. A great many tickets have already been sold and a large crowd is assured.

The concert will be well worth while, and you'll get more than your money's worth besides supporting an organization that is an asset to the community. Don't miss it.

Frank Watkins of the Royalty staff at Turner Valley, while fixing a wire in the machine shop fell to the ground and was severely injured both internally and in the head. He was taken to the General Hospital, Calgary where he is at present undergoing treatment.

On Sunday last Mr. and Mrs. Geo. Brown, and son, Mrs. Meredith and Mr. Lyons motored to Vegreville. Mrs. Lyons and baby returned home with them.

Mrs. J. Rae arrived from Edmonton last Saturday to be at the bedside of her father, J. McArthur, who is seriously ill at the hospital.

Mr. and Mrs. Earl Lyons were away at Vegreville on Sunday, February 19th and attended the Weener-Rein wedding there. The groom is a brother of Mrs. Lyons.

Bert Walters rink won second in the Edmonton Brewery competition at the Wainwright bonspiel last week. McAthey's rink just missed getting into the jewelry class.

Mr. Hake of Kinella was up the first of the week with his fourteen year old son to the local hospital for medical attention for a bad cut above the eye received in a hockey game.

The recital by Mrs. McLahan last Wednesday evening was very much enjoyed by those who turned out to hear her. Many other affairs that evening kept the attendance down.

Rev. T. T. Bae is returning home this week from a visit with relatives and friends in Washington.

Protecting B.C. Fruit Crop

Counter-Parasites Are Being Imported Into Orchard Regions

Bug will fight bug this season to protect the Okanagan fruit crop from destruction. Counter-parasites are being imported into the orchard regions in a campaign to decimate the codling moth and euwall.

The counter-parasites, according to E. R. Buckle, local entomologist at Vernon, will be obtained from Wenatchee, Wash., the United States government having offered to co-operate fully with the British Columbia authorities. Parasites inimical to the codling moth and euwall have done effective work in the past, although they have to be handled with a great deal more care because of the danger of introducing secondary pests with them.

Unless the codling moth is suppressed, growers fear that it may bring about destruction as extensive as in the state of Washington, where losses due to the activity of this pest were \$5,000,000 in 1926. Eight hundred carloads of apples were classified as culls in the Yakima district for same reason.

Pleased With Visit

Kellogg Says Ottawa Visit Was Most Enjoyable He Ever Spent

Secretary of State Frank B. Kellogg, on his return to Washington, from his trip to Canada, said he never enjoyed a visit more in his life. Speaking of his reception at Ottawa, the secretary said that while Canadian hospitality was proverbial, the manner in which he was received by the governor-general, Viscount Willingdon; the prime minister, Rt. Hon. W. L. Mackenzie King, and the officials and members of parliament, had been beyond his anticipation. The secretary was particularly interested in the Archives building at Ottawa, which he thought was one of the most interesting exhibits in the world.

FACES ACROSS THE SEA

Image Of Woman Transmitted By Television For First Time

New worlds were opened up when faces were flashed across the sea by television in a way which was never foreseen even by Jules Verne in all his fanciful imagination. For the very first time the image of a woman was sent across despite the fact she left her position in front of the transmitter a few seconds to glance in a wall mirror to make certain her hair had not become mussed in the excitement. Dummies and men's faces had been flashed across in previous tests but never a woman. John L. Baird, inventor of the television explained he had difficulty in finding a woman willing to attempt to sit still for twenty minutes of half an hour. The transmission was accomplished from Baird's television laboratories in London, directed to the receiving station at Hartsdale, New York, which had been rigged up for the occasion.

Baird himself was the first after the transmitter. Afterward, W. C. Cox, of the London Press Association sat for half an hour. Reports came back from the United States that Fox was showing up well.

Then Mrs. Howe, wife of James Howe, of the London Bureau of the Associated Press, took her seat in front of the seventeen glowing incandescent lamps, of 309 candlepower each.

Baird was as excited as a boy when he heard detailed reports of the reception in the United States of the image of Mrs. Howe.

"Indeed I was delighted," Baird said. "It was a splendid demonstration as far as the subject of the electric light is concerned. These tests are merely try outs of the unlimited television possibilities of the near future."

"It was the greatest thrill of my life when Mr. Baird told me my image had been seen on the other side of the Atlantic," Mrs. Howe said. "The glare and heat of the electric lights bothered me only a trifle—I was so thrilled at the novelty of it all to think of the temporary discomfort."

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine For Nervous, Sleepless Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children. "Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn Me., "My little girl was nervous and could not sleep. I tried the Tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by Dr. Williams' Medicine Co., Brockville, Ont.

Federal Grants For Fairs

Policy Of Government Should Be Better Defined

Western members of parliament are in receipt of telegrams almost daily from constituents in regard to the federal grants to class B fairs, and there is every indication that the policy of the government in this regard will be a subject of keen controversy in the present session. The difficulty arises out of the manner in which the grants are given. Some fairs receive assistance and others do not, and the government hitherto has declined to base the assistance upon any principle. Western members declare that the grants should be given to all fairs which can qualify as class B, or discontinued entirely.

Many a man who has made a failure at everything else imagines that he is a success as a husband.

The man who is looking for trouble doesn't have to advertise for it.

Noted Indian Chief Dead

Narrowly Escaped Being Buried Alive 23 Years Ago

Moses Brown, noted Indian chief of the Chehalis Reserve, B.C., is dead and buried this time, his fellow-tribesmen say, the old man is not likely to rise again.

The chief was almost buried alive 35 years ago. For two days the Indian villagers thought he was dead as a result of an accident. They placed the body in a coffin, performed the usual tribal funeral rites, and set out for the burial ground. When the coffin was being lowered into the grave it accidentally jarred against the bottom and the sudden jolt brought the occupant back to consciousness.

Realizing that he was imprisoned, Moses began to beat furiously on the coffin, which was immediately broken open by the astonished Indians. The man, supposedly dead, walked home with the mourners, apparently none the worse for his experience.

The dead chief served the province and federal governments as a guide for years and as a boy accompanied many prospecting parties into the Cariboo during the gold rush. He was the only full-blooded Indian ever employed as a bartender in British Columbia. That was in New Westminster in the early days of the province.

Besides being known as a great medicine man among the Indians, Chief Moses was well educated. He could speak, read and write fluently, and also had a good knowledge of French, Spanish and Chinese.

Truth About Cancer

"Neither X-rays nor radium has ever cured cancer," says a statement of service, as a cure of cancer. For of both of these appliances I have had ample experience.

"It is no use experimenting upon a disease unless we first of all know something of its natural history, and yet the general consensus of opinion among surgeons, which they have no hesitation in circulating, is that the cause of cancer is not known. Yet they continue to treat it by methods that apply only to a local outbreak, which, much to my regret, have failed in the majority of cases."

"I am sure that remains that operative treatment for cancer has been practised from time immemorial and from my knowledge of the disease I affirm that the knife has never cured cancer in a single instance; but, on the contrary, has only succeeded in aggravating the disease and adding to the sufferings of the poor patient; and also shortening his or her life, which latter, perhaps, might be looked upon as a godsend in the circumstances."

"Now cancer is a blood disease—and there is no doubt that the local manifestation being merely an outcrop of the malady, the cause being prolonged toxic condition of the blood."

Love of humanity and truth impelled the internationally celebrated British cancer surgeon, Dr. Robert Bell, M.D., F.R.C.S., &c., to abandon his lucrative surgical practice and, with convincing proofs of his ability, to devote himself to the treatment of the deadliest known disease.

Before passing at an advanced age in 1926, wishing to ameliorate the condition of cancer sufferers in Canada and the United States, Dr. Robert Bell kindly authorized the writer to his principles and to his personal letters in humanity's service and a book of valuable information concerning prevention and treatment of cancer without surgical operation, radium or X-ray treatments or expense can be obtained, without charge, on application to Charles W. Walter, 51 Brunswick Avenue, Toronto, 4, Ontario, Canada.

A Parisian poet, Louis Lohgare, entered a cage of wild lions and read his poems for half an hour. The lions seemed unharmed.
 The man who has millions today doesn't control a single minute of tomorrow.
 If you're not up and doing, you're down and being done.
 Woodmen—Keep Minard's handy.

Source Is Still Unknown

"Cosmic Rays" Have Baffled Scientists For Many Years

Rays from the Milky Way with more than 30 times the penetrating power of X-rays, and which have baffled scientists for more than 20 years since they were first suspected, have now been described by Professor Miliken and Dr. Cameron, of Saskatoon.

The inference made is that they searched the universe in an attempt to determine the source of these rays which are called "cosmic rays." They describe their latest attempts in California and on the heights of the Andes mountains in South America. They have tested the light from the stars without result. They have found no effect from the sun; and they have gathered nothing from their trials in interstellar space.

The inference made is that the rays come to the earth from the edge of the universe, far beyond the ring formed by the Milky Way, and had their origin 1,000,000,000 light years ago. The rays are believed to be electrical in origin, but to produce rays with the same penetrative power would require an electro-motive force of 41,000,000 volts.

While a fairly thick coating of lead is impenetrable to X-rays, the cosmic rays can be detected behind a lead screen up to 16.7 feet thick, and to a depth of 190 feet of water.

Alberta Liquor Profits

Profits Of Over Two Million Dollars On Government Sale Of Liquor

Net profits of \$2,038,622 on government sale of liquor were made in Alberta last year, according to the report of the Liquor Control Board which was laid on the table of the House at Edmonton.

The report, covering the full calendar year of 1927, shows an increase of \$235,070 over the preceding year's profits. Gross sales amounted to \$4,858,849.

Improvement is noted in respect to violations of the liquor law. All convictions totaled 2,450, a decline of 359. The convictions for drunkenness were 1,065, or 117 less than the year before.

Law enforcement was strictly carried out and the officers on that work travelled 136,000 miles.

The cost of law enforcement of the liquor laws was \$106,026. Excellent co-operation from the municipal and Dominion police was reported.

That Alberta's liquor business has made a satisfactory contribution to the Dominion treasury is indicated by the report which puts the amount paid to the Federal government by the board and brewers of the province at \$2,454,000. This amount was paid in customs and excise duties, sales tax, etc.

CREAM OF TOMATO SOUP

2 1/2 cups canned or fresh cooked tomatoes
 1/2 small onion, sliced.
 1 stalk celery, minced.
 1 tablespoon minced parsley.
 1/2 bay leaf.
 2 whole cloves.
 1 teaspoon salt.
 1/2 teaspoon pepper.
 1 teaspoon sugar.
 2 tablespoons soda.
 2 tablespoons butter.
 2 tablespoons flour.
 1 1/2 cups Borden's St. Charles Milk.
 1 1/2 cups water.
 Add seasoning to tomatoes and simmer fifteen minutes, strain.
 Melt butter in saucepan, stir in flour. Dilute milk with water, pour slowly into butter and flour, stirring until it thickens. Continue to cook five minutes. Just before serving, add soda to tomatoes, gradually add tomatoes to white sauce, stirring constantly, serve immediately.
 All or any of the vegetable seasoning may be omitted, but addition gives a smooth, well-blended flavor to the soup.

How She Saved

A poor blind woman in Ireland put ten shillings into a plate at a missionary meeting. "You cannot afford so much," said one. "Yes, I can," she answered. On being pressed to explain, she said, "I am blind, and I asked my neighbor how much money he spent for oil in his lamps in a year. He replied 'Ten Shillings.' So I found that I have saved so much because I am blind and do not need a lamp and I give it to shed light to heaven lands."

Back Seat Record

He had just bought a car. His wife went with him on a few expeditions, and did not hesitate to criticize her husband's driving.

"Hello, old man!" said a neighbor one evening. "I see you've got a car. What do you get out of it?"
 "About 40,000 words to the gallon," answered the husband.

Some folks persist that a healthy baby should be a delicate pink. Too many of them are robust yellows.

CANCER

Great Success of Castanion Treatment

A well-known London surgeon and recognized authority on Cancer, has done a world-wide interest in the discovery that "Cancer" is due to a deficiency of potassium "salts" in the body which causes the cells to break down and become malignant. In order that every one may learn

The Real Cause of Cancer

A remarkable book has been specially written.

This book will be sent free to patients or any one who is suffering from Cancer, on receipt of method of fighting "THE CANCER SICKNESS."

This book is a number of interesting case-reports proving the great success of the "Castanion Treatment" in various cases. The treatment is simple, safe, and effective, and can be easily taken in one's own home. Apply for free book to Charles A. Castanion, 51 Huron Street, Toronto, Ontario, Canada.

Planning First Air Cruise

Keen Interest Taken In Flight Being Arranged by Imperial Airways

The first aerial cruise in the history of the world will leave Croydon aerodrome shortly, carrying 12 passengers on a de luxe 35-day tour of France, Spain, Northern Africa, Sicily, and Italy.

Keen interest is being manifest to the epochal flight which is being arranged by the Imperial Airways and a number of Americans have requested permission to join the cruise.

Luxurious services on board the plane will be a feature of the trip, the crew, including pilot, engineer, and steward, luncheons as well as afternoon tea will be served on board the plane, and passengers will have a first class buffet at their disposal.

This first air cruise in the world will include a distance of 5,500 miles by air, in addition to hundreds of miles by car, all of which has been arranged by the directors of the tour.

Doctor—About nine patients out of ten don't live through this operation. Is there anything I can do for you before we begin?
 Dusky Patient—Yassah. Kindly hand me mah hat.

The BABY

Why do so many, many babies on today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up half the night?

If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the lax system. Not even a distasteful dose of castor oil does so much good.

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic, or constipation, or diarrhea. Or those many times when you just don't know what is the matter. For real sickness, call the doctor, always. At other times, a few drops of Fletcher's Castoria.

The doctor often tells you to do just that; and always says Fletcher's. Other preparations may be just as pure, just as free from dangerous drugs, but why experiment? Besides, the book on care and feeding of babies comes with Fletcher's Castoria. It is worth its weight in gold!

CANADA IS A

REAL BEE COUNTRY

At one time, any well informed bee keeper would have laughed at this statement. We used to think that Montana and the Dakotas, and the Canadian Provinces were too cold for bees.

Times have changed. Now these are ideal places for large scale honey production; long, warm summer days,

with cool nights, — a nectar secreting combination, — and clovers and education have done the rest.

Seven million pounds of honey were produced in Manitoba alone in 1927. Ontario and Quebec have long been heavy producers. The other provinces are coming to the front. — American Bee Journal.

GET THE LAST DROP

Main Street

Mr. C. J. Young has started an implement business at Stettler, Alta.

Mrs. F. Peterson, who has been confined to her bed for a couple of weeks is slightly improved.

Mrs. A. G. Walker and her mother, Mrs. Robertson, are in Calgary.

Mr. P. J. Hardy made a business trip to Edmonton this week.

Miss Louise Smith has been indisposed for the past week with a bad cold.

Mr. Joseph Hardy of the Albert district returned from Edmonton Thursday.

Mr. L. Larson of Hay Lake has spending a few days in Irma.

Mr. and Mrs. G. A. Tripp returned Thursday after spending ten weeks at Vancouver and other B. C. points.

Mr. A. Blakley is drawing lumber for building a new house and other buildings.

Mr. Pete Milden, of Tacoma, Washington arrived Thursday, to visit his father, W. L. Milden who is quite ill.

Mr. T. Barreth has purchased the N.W. quarter of Section 8-44-9 with from the Hudson Bay Company.

Mr. R. G. Martin returned from Edmonton on Tuesday. Mr. Martin expects to have to return to the city for further treatment.

Mr. Ed. Bunderman was in Irma Wednesday and took two fine Yorkshire brood sows out to his farm. Ed states he is still looking for a house-keeper.

Two second hand drills, stiff tooth cultivator and three-furrow power-lift tractor plow for sale cheap. See McDowell.

Mr. and Mrs. J. G. Rae, Mr. Wilmer Rae, and Miss Margaret Rae motored to Kinsella last Sunday where they visited Mrs. M. J. Lockhart.

Wednesday while cutting wood at his grandfather's place, Frank E. Peterson met with an accident and cut the end off the middle finger on his right hand.

All ladies interested in the Women's Institute are invited to a meeting at Mrs. Schenert's at 3 o'clock Wednesday afternoon, March 7th.

Mr. J. H. Elliott celebrated his 80th birthday anniversary on Thursday on which day he received many congratulations and good wishes for many happy returns of the day.

Miss Agnes Craig intends holding a closing out sale of Farm Implement, Household Effects, and live stock, on Thursday, March 15th. Mr. J. W. Stuart, will act as auctioneer.

Watch for list in next week's Times.

Mr. Aitkin, U.F.A., Director for Battle River gave a very interesting talk here in Irma Wednesday evening.

It was a good meeting and those who turned out feel they received much valuable information.

Mr. W. Masson has received the appointment of Issuer of Marriage Licenses; and we have no doubt will be pleased to meet any of his friends who are interested in this branch of his business.

Seven of the brushcutters who were cutting brush in the Irma district last summer, returned Tuesday. They have started cutting for Mr. Blakley on Strawberry Plains and intend spending the coming season in this part of Alberta.

Word reached Irma last week that a son had arrived at the home of Mr. Peattie. Mr. Madson, was formerly manager at the Irma Creamery, when Irma district, who will all be pleased to hear of the happy event.

We notice a very fine line of new cars at the local garage. One looking at these cars is amazed at the value, performance and appearance of this leader in automobiles. Our local dealer E. L. Elford, Prop. of Irma Motors, is to be complimented on securing the agency for this most popular car.

Mr. E. T. McDowell reports the following sales of C. P. R. lands. Geo. Pedel, purchaser the S. E. of Section 5-45-9-4. Joseph Gulbraa has purchased the N.W. of Section 9-45-9-4.
